#tourismexperts

Online marketing for hotels & experiences

Peer Kirmse and his team at LUPCOM have been creating digital experiences since 1999. As a full-service agency based at the Baltic Sea, we develop state-of-the-art web projects for hotels and service providers - all the way from the coast to the mountains. Being data and analytics fans, we not only make experiences bookable, but also provide for comprehensible facts. We offer everything from one source: starting with a concept to the design and development of hotel websites with booking solutions, up to search engine optimisation.

Always in focus: a clear strategy, advanced technology and performance-oriented data analysis.
